# Devices from Virgin Media O<sub>2</sub> Business

We can supply your organisation with mobile devices, PC devices, accessories and services. We provide a full range of solutions, focusing on sustainability to minimise the impact on the environment and enable the circular economy.

When choosing the right device, it is important to consider user needs and the ecosystem the devices are expected to operate in.

We have mobility at our core. And we've got 30 years' experience of helping businesses go mobile. Our solutions will help you work smarter and take advantage of the digital workplace.

# Devices services

We have a full range of devices to cover all your business needs and enable your people with the best tech.

We can also provide some additional services to help with your estate roll out:

## Managed Logistics

A cost-effective and time-efficient way to deploy customised devices, directly to your business employees. Our in-life asset management and logistics service offers repairs and refurbishment or replacement of damaged or faulty devices, for future use within your business.

## O<sub>2</sub> Capital

O2 Capital gives you more buying power and flexibility when making a purchase. It is a method of funding to enable your business to pay for hardware & professional services. You can spread the upfront cost in regular flexible payments across an agreed term, with the option to return or keep the device at the end.

Device pricelist

## Device Enrolment

Our Device Enrolment services come at no additional cost, automatically connecting your device to your IT Management platform, speeding up and simplifying onboarding. We natively support Apple Device Enrolment (ADE), Samsung Knox Mobile Enrolment (KME), and Android Zero Touch Enrolment (ZTE) for all our Direct Business customers.

## Endpoint Protection

Endpoint Protection enables your organisation to maintain continuous security across your entire mobile environment.

## Device Enablement

We have the tools to deploy, manage and secure our business-critical devices throughout their lifetime.

# What's new

<sup>1</sup> **4G Calling** : UK Only = device does not support 4G calling whilst Roaming. Y = device can support 4G calling in UK and whilst roaming. Service is dependent on tariff and network support

<sup>2</sup> **COOB** = Charger out of the box. Devices marked with a "No" come with a USB charging lead only. No plug is provided. If required, please order separately.

**5G SA**: 5G comes in two different types: 5G Non-Standalone (NSA) – this is our current 5G service built on top of our 4G network. 5G Standalone (SA) – a new impressive separate network providing enhanced reliability and more advanced features over time. More info here: <https://www.o2.co.uk/5g>

**EOL** : End of life; no longer stocked by O2, although might still be supported by the manufacturer

# Why us?

We'll help you focus on what's important

Our service fits around your organisation to help you meet the needs of your users or customers.

We combine the power of two of the UK's leading network

Our fixed and mobile network understanding means our customer.

We can help you achieve more with digital transformation

The leading technology partnerships we have across our ecosystem enable us to deliver outcome-led solutions for the organisations we serve for today and the future.

By working closely together with those in our trusted network, we can provide services and solutions that connect, protect and empower your business so you can achieve more on your digital transformation journey.
