

Are you wishing to upskill in a particular area of genomics or boost your CV?

NHS England (NHSE) are funding NHS employees to complete Genomic Medicine modules or academic awards (e.g. PgCert) at St George's, University of London (and other preferred providers of the Genomic Medicine course). We jointly deliver this course with colleagues at King's College London, so you benefit from the expertise of clinical and non-clinical colleagues at two world-leading institutions. Below is a list of the available modules in 2024-25 with the dates of teaching. Teaching is primarily face-to-face with some online learning.

- Fundamentals of Human Genetics and Genomics - 11 -17 September 2024 (SGUL)
- Genomics of Common and Rare Inherited Diseases - 25 September – 1 October 2024 (SGUL)
- Omics Techniques and Technologies - 24 - 30 October 2024 (KCL)
- Genomics of Neurological Disorders - 11 - 15 November 2024 (SGUL)
- Bioinformatics, Interpretation and Data Quality Assurance in Genome Analysis - 20 - 26 November 2024 (KCL)
- Application of Genomics in Infectious Diseases - 2 – 6 December 2024 (SGUL)
- Pharmacogenomics and Stratified Healthcare - 15 – 21 January 2025 (KCL)
- Cardiovascular Genetics and Genomics - 29 January - 4 February 2025 (SGUL)
- Ethical, Legal and Social Issues in Applied Genomics - 12 – 18 February 2025 (SGUL)
- Molecular Pathology of Cancer, and Application in Cancer Diagnosis, Screening and Treatment - 19 - 25 February 2024 (KCL)
- Advanced Bioinformatics - 6 - 12 March 2025 (KCL)
- An Introduction to Counselling Skills in Genomics - 20 - 26 March 2025 (SGUL)
- Fetal Genomics: Decoding the Blueprint of Human Development - 3 - 9 April 2025 (KCL)
